STYLECRAFT VISION PRO

The sales companion that answers **"Is it better than my Wahl?"** in seconds, right in front of the barber.

TODAY

Reps carry PDFs and catalogs, guess competitor specs, and lose the moment when a barber asks how we compare.

WITH VISION PRO

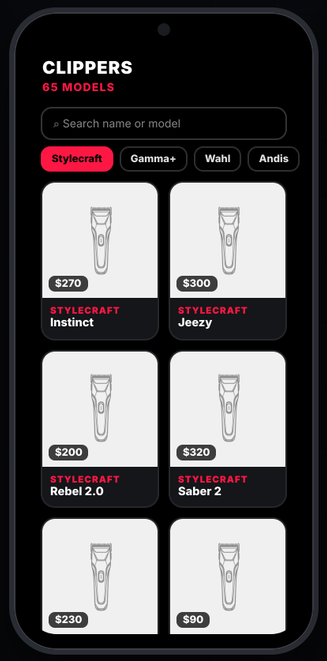

Scan or tap any clipper, trimmer, shaver or dryer, see verified specs side-by-side with Wahl, Andis, BaBylissPRO, JRL and more, and share a branded comparison on the spot.

1

One home for everything

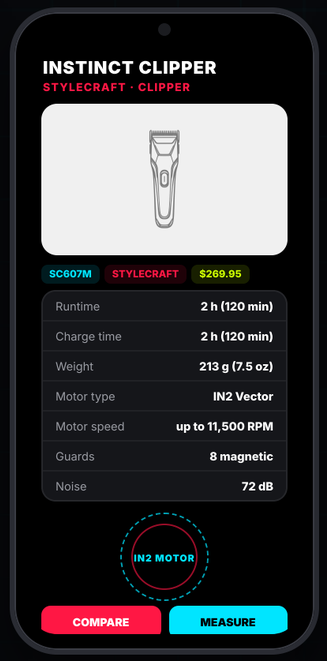

Four categories, accessories and tools, with animated icons and a futuristic look.

2

Every model, every brand

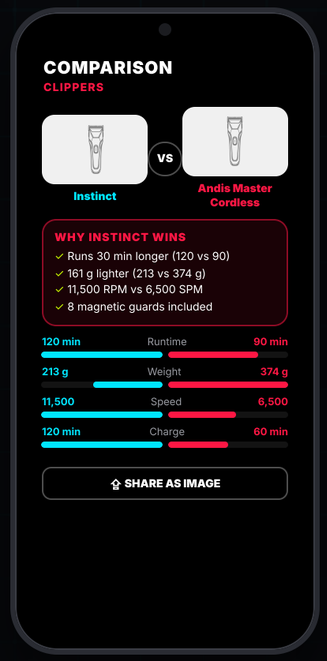

Grid of front photos with brand filters, search and prices. Stylecraft first.

3

Spec sheet in one tap

Runtime, charge, weight, motor, RPM, guards, price, plus the animated motor showcase.

4

Head-to-head wins

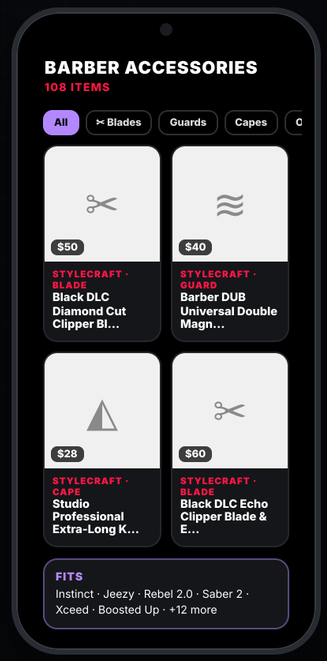

Side-by-side bars, ready-made talking points and a branded image to share by text or WhatsApp.

5

Scan anything

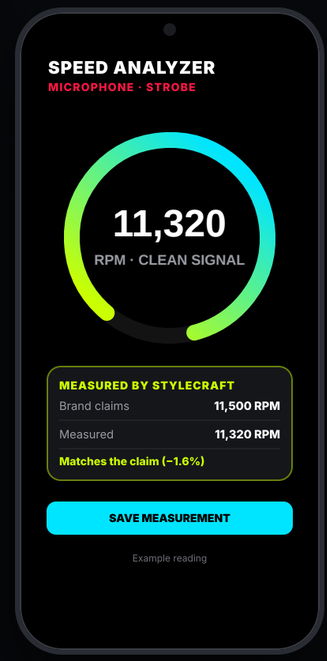

Reads the barcode, the label, or recognizes the product by its shape and look, like the Amazon app.

6

Blades, guards & capes

Every accessory shows which clippers it fits, and every clipper shows its compatible accessories.

7

Proof, not claims

Measure motor speed with the phone's mic and show "Measured by Stylecraft" next to any brand's claim.

ALSO BUILT IN

- ★ Favorites & full-screen Show Mode for booths
- Branded comparison images to share
- ES English / Español in one tap
- Online catalog: edit a Google Sheet, every phone updates
- ✓ Spec sources listed · estimates labeled
